1. Пояснительная записка

Под загадочным словом «**Causatives**» скрывается группа очень удобных и широко используемых грамматических конструкций в английском языке.

Каузативные конструкции (causatives) используются, чтобы показать, что действие выполнено по нашей просьбе кем-то другим.

В каузативной конструкции подлежащее не является деятелем (не выполняет действие само), но организует его или просит у профессионала выполнить действие. Отсюда и название конструкции – the causative form (в переводе от cause – причина, to cause – побуждать, добиваться).

Конструкция «Causative form» в английском языке используется довольно часто.

Causative form в английском языке представлена следующими конструкциями:

have something done (дословно – иметь что-то сделанным для себя же)

have someone do something (заставить кого-то что-то сделать для вас)/

Актуальность тренажера обусловлена тем, что у учащихся в письменной и устной речи вызывает определенные сложности описание услуги, которую нам оказали, или какого-то неприятного события, которое с нами произошло в тех случаях, когда действие производим не мы, но направлено оно на нас или на нашу собственность.

Работа состоит из трех разделов:

В разделе I: подобраны упражнения **Controlled practice** (свободы учеников ограничены). Подобраны грамматические упражнения, задания типа «вписать в пробел нужную форму, обведите правильный ответ, выберите правильный ответ т.д.»;

В разделе II: Semi-Controlled practice (полуактивная практика). Здесь больше творчества и свободы. Ответить на вопросы по тексту, описать картинку, составить диалог по заданной модели;

В разделе III: Free practice (свободная речь). Ученик практикует изучаемый материал в свободной речи. Обсуждения, дискуссии, ролевые игры.

Цель работы: совершенствование грамматических навыков учащихся в употреблении каузативной формы глагола в письменной и устной речи.

Задачи:

- подбор упражнений на практику конструкции «Causatives»;

- отработка навыков распознавания и использования каузативной формы в речи;
- практическое использование «Causatives» в письменной и устной речи.
